## Application of ISO/IEC 17021-1 based on ISO 29993 standard

### 0. Introduction

ISO/IEC 17021-1 is an International Standard

- that sets out the general requirements for bodies operating audit and certification of organizations' management systems.
- this document aims to guide certification bodies (CBs) in the consistent application of ISO/IEC 17021-1 for the accreditation of organizations that provide audit and certification services in accordance with ISO 29993.

### 1. Scope

This document specifies normative criteria for CBs auditing and certifying organizations' Learning Service Provider to ISO 29993, in addition to the requirements contained in ISO/IEC 17021-1.

### 2. Normative References

The following normative references applies:

- The normative references given in ISO/IEC 17021-11 and the following apply.
- ISO 29993\* Learning Service outside formal education – Service requirements

\*Note: Standard version refers to the latest version

### 3. Terms and Definitions

Terms and Definitions refers to ISO 29993 standard.

**Learning Services Outside Formal Education:** including all types of life - long learning (e.g. vocational training and in- comp any training, either outsourced or in- house).

#### Abbreviation used in this document:

|                           |     |
|---------------------------|-----|
| Certification Body        | CB  |
| Learning Service Provider | LSP |
| Technical Expert          | TE  |
| Team Leader               | TL  |

#### 4. Principles

|     |                                     |                                                                                                                           |
|-----|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| 4.1 | <b>General</b>                      | No additional requirements for ISO 29993.                                                                                 |
| 4.2 | <b>Impartiality</b>                 | No additional requirements for ISO 29993.                                                                                 |
| 4.3 | <b>Competence</b>                   | No additional requirements for ISO 29993.                                                                                 |
| 4.4 | <b>Responsibility</b>               | ISO 29993 requires the organization to comply with the statutory and regulatory requirements applicable Learning services |
| 4.5 | <b>Openness</b>                     | No additional requirements for ISO 29993.                                                                                 |
| 4.6 | <b>Confidentiality</b>              | No additional requirements for ISO 29993.                                                                                 |
| 4.7 | <b>Responsiveness to Complaints</b> | No additional requirements for ISO 29993.                                                                                 |
| 4.8 | <b>Risk-based Approach</b>          | No additional requirements for ISO 29993.                                                                                 |

#### 5. General Requirements:

|     |                                      |                                                                                                                                              |
|-----|--------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| 5.1 | <b>Legal and Contractual Matters</b> | The CB shall establish appropriate agreements with their clients to release audit report information to regulators that recognize ISO 29993. |
| 5.2 | <b>Management of Impartiality</b>    | No additional requirements for ISO 29993.                                                                                                    |
| 5.3 | <b>Liability and Financing</b>       | No additional requirements for ISO 29993.                                                                                                    |

#### 6. Structural Requirements

|     |                                                  |                                           |
|-----|--------------------------------------------------|-------------------------------------------|
| 6.1 | <b>Organization Structure and Top Management</b> | No additional requirements for ISO 29993. |
| 6.2 | <b>Operational Control</b>                       | No additional requirements for ISO 29993. |

#### 7. Resource Requirements

|     |                                                           |                                                                                                                                                                                                                                                                                                                             |
|-----|-----------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7.1 | <b>Competence of Personnel</b>                            | <p>Refer clause 7.1.1 of ISO/IEC 17021-1 (as relevant for the specific certification scheme) ISO 29993, this should be understood to mean Learning services and applicable legal requirements.</p> <p>All personnel involved in ISO 29993 certification shall meet the competency requirements of Annexure 2 &amp; 3</p>    |
| 7.2 | <b>Personnel Involved in the Certification Activities</b> | <p><b>Application reviewer</b></p> <p>Application reviewer shall meet the competency requirements of Annexure 2 &amp; 3</p> <p>Application reviewer may be certification decision personal if he/she compliance the requirement of Personnel making the certification decision as per Annexure 2.</p> <p><b>Auditor</b></p> |

|     |                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 9.1 | <b>PROCESS REQUIREMENTS</b>  | <p><b>Outsourced process:</b></p> <p>CB shall verify the applicants outsourced process where applicable.</p> <p><b>Determining audit time:</b><br/>Annexure 4 provides a starting point for estimating the audit time of an initial certification audit (Stage 1 + Stage 2).</p> <p>Audit time is dependent on factors such as the audit scope, objectives, and specific regulatory requirements to be audited, as well on the range, class and complexity, and the size and complexity of the organization.</p> <p>When CBs are planning audits, sufficient time shall be allowed for the audit team to determine the conformity status of the client organization's Learning Service provider management system with respect to the relevant regulatory requirements. Time required to audit national or regional regulatory requirements and dossier reviews shall be additional and justified, so as not to diminish the audit of the LSP.</p> <p><b>Multi-site sampling</b><br/>Annexure 1 applicable for the multi-site</p> |
| 9.2 | <b>Planning Audits</b>       | The audit team shall have the competence for the Technical Area (Annexure A in conjunction with relevant knowledge and skills as defined in Annexure B) for the scope of audit.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 9.3 | <b>Initial Certification</b> | <p><b>Stage 1</b></p> <p>The stage 1 can be performed on-site or<br/>Virtual audits can also be performed with justifications</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 9.4 | <b>Conducting Audits</b>     | <p>Identifying and recording audit findings Examples of major nonconformities which require the acceptance, and the verification of the effectiveness of correction and corrective actions are as follows:</p> <p>a) failure to fully address applicable requirements and implement</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|            |                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| <b>9.6</b> | <b>Maintaining Certification</b> | <p><b>Surveillance:</b></p> <p>the surveillance programme shall include a review of actions taken for notification of adverse events, advisory notices in addition to the compliance LSP requirements.</p> <p><b>Short notice audit:</b></p> <p>Short notice or unannounced audits may be required in case of:</p> <ol style="list-style-type: none"> <li>a) scope of certification indicates a possible significant deficiency in the LSP.</li> <li>b) significant changes occur due to regulations, or any factor known to the CB, and which could affect the compliance with the regulatory requirements</li> <li>c) when required by legal requirements under public law or by the relevant Regulatory Authority</li> </ol> <p>The following are examples of such changes for considering a short notice or unannounced audit:</p> <ol style="list-style-type: none"> <li>a) LSP – impact and changes:</li> <li>b) new ownership</li> <li>c) new facility, site change</li> <li>d) new processes, process changes</li> <li>e) LSP management, personnel</li> <li>f) Request from Client or AB</li> </ol> <p>An unannounced or short-notice audit may also be necessary if the CB has justifiable concerns about implementation of corrective actions or compliance with standard and regulatory requirements.</p> <p>CB shall inform to the client about the short notice audit and shall be documented.</p> |

|     |                       |                                                                                                                |
|-----|-----------------------|----------------------------------------------------------------------------------------------------------------|
|     |                       | CB shall make an agreement with client for witness audit which will be witnessed AB or IAAB or both assessors. |
| 9.7 | <b>Appeals</b>        | No additional requirements for ISO 29993                                                                       |
| 9.8 | <b>Complaints</b>     | No additional requirements for ISO 29993                                                                       |
| 9.9 | <b>Client Records</b> | No additional requirements for ISO 29993                                                                       |

## 10. Management System Requirements

|        |                                 |                                               |
|--------|---------------------------------|-----------------------------------------------|
| 10.1   | <b>Option A:</b>                | <b>General Management System Requirements</b> |
| 10.1.1 | <b>General</b>                  | No additional requirements for ISO 29993.     |
| 10.1.2 | <b>Management system manual</b> | No additional requirements for ISO 29993.     |
| 10.1.3 | <b>Control of documents</b>     | No additional requirements for ISO 29993.     |
| 10.1.4 | <b>Control of records</b>       | No additional requirements for ISO 29993.     |
| 10.1.5 | <b>Internal audits</b>          | No additional requirements for ISO 29993.     |
| 10.1.6 | <b>Management review</b>        | No additional requirements for ISO 29993.     |
| 10.1.7 | <b>Corrective actions</b>       | No additional requirements for ISO 29993.     |
| 10.2   | <b>Option B:</b>                | No additional requirements for ISO 29993.     |
| 10.2.1 | <b>General</b>                  | No additional requirements for ISO 29993.     |
| 10.2.2 | <b>Scope</b>                    | No additional requirements for ISO 29993.     |
| 10.2.3 | <b>Management review</b>        | No additional requirements for ISO 29993.     |

### Annexure 01: Technical Sector

| Category | Main Technical Areas                 | Product Categories Covered by the Technical Areas                                                                                                                                                               | Risk Category                                                  |
|----------|--------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------|
| Sector 1 | Traditional Training                 | <ul style="list-style-type: none"> <li>Yoga related</li> <li>Culture related (e.g. specific to the country or state etc.)</li> </ul>                                                                            | Low risk                                                       |
| Sector 2 | Industrial Training                  | <ul style="list-style-type: none"> <li>Manufacturing related</li> <li>Service related</li> <li>Trading related</li> </ul>                                                                                       | Medium Risk                                                    |
| Sector 3 | Innovative & Technological Trainings | <ul style="list-style-type: none"> <li>AI (Artificial Intelligence)</li> <li>Machine learning (ML)</li> <li>Data Science</li> <li>Software / Apps / Cloud based</li> <li>Space related / drones etc.</li> </ul> | High Risk                                                      |
| Sector 4 | Other Training                       | <ul style="list-style-type: none"> <li>Other trainings which are not the part sector 1, 2,3</li> </ul>                                                                                                          | Low / Medium / High to be decided based the nature of training |

## Risk classification

### Examples of Risk Categories

These risk categories are not definitive, they are examples only that could be used by a CB when determining the risk category of an audit.

**High Risk:** Where failure of the product or service causes economic catastrophe or puts life at risk.

**Medium Risk:** Where failure of the product or service could cause significant damage.

**Low Risk:** Where failure of the product or service is unlikely to cause damage to organization or service.

### Additional Manday Consideration:

In case of high-risk CB should calculate additional man days if needed based on the complexity / legal requirements and calculated effective number of personnel.

### Effective Number of Personnel

The effective number of personnel consists of all personnel (permanent, temporary, and part-time) involved within the scope of certification including those working on each shift.

When included within the scope of certification, it shall also include non-permanent (e.g. contractors) personnel.

### Calculation of the Effective Number of Personnel

The effective number of personnel as defined above is used as a basis for the calculation of audit time of management systems of LSP.

Considerations for determining the effective number of employees include

- part-time personnel and employees partially in scope,
- those working on shifts, administrative and
- all categories of office staff,
- similar or repetitive processes.

In case of seasonal trainings and operations the calculation of the effective number of personnel shall be based on the personnel typically present in peak season operations.

Part time personnel and employees partially in scope Dependent upon the hours worked, part time personnel numbers and employees partially in scope may be reduced or increased and converted to an equivalent number of full-time personnel.

{e.g. 50 part time employee working 4 hours/day equates to 25 full time employees (FTE)}

The justification to determine the effective number of personnel shall maintain the record by CB.

## Multi-site Organization

A multi-site organization does not need to be a distinct legal entity, but all sites must:

- Have a legal or contractual link with the central function.
- Operate under a unified management system that is established, monitored, and audited by the central function.

The central function has the authority to enforce corrective actions at any site when necessary.

Where applicable, this requirement should be formally documented in an agreement between the central function and the sites.

### ELIGIBILITY OF A MULTI-SITE ORGANIZATION FOR CERTIFICATION

- The organization shall have a single management system.
- The organization shall identify its central function.
- The central function is part of the organization and shall not be subcontracted to an external organization.
- The central function shall have organizational authority to define, establish and maintain the single management system.
- The organization's single management system shall be subject to a centralized management review.
- All sites shall be subject to the organization's internal audit programme.
- The central function shall be responsible for ensuring that data is collected and analyzed from all sites and shall be able to demonstrate its authority and ability to initiate organizational change as required in regard, but not limited, to:
  - (i) system documentation and system changes;
  - (ii) management review;
  - (iii) complaints;
  - (iv) evaluation of corrective actions;
  - (v) internal audit planning and evaluation of the results; and
  - (vi) statutory and regulatory requirements pertaining to the applicable standard(s).

### Methodology for Auditing of a Multi-site Organization Using Site Sampling

- Sampling of a set of sites is permitted where the sites are each performing very similar processes/activities.
- Not all organizations fulfilling the definition of “multi-site organization” will be eligible for sampling.
- **Sampling**
- **The sample shall be partly selective based on the factors set out below and partly random, and shall result in a representative range of different sites being selected, ensuring all processes covered by the scope of certification will be audited as per the below table:**

| Number of Sites | Sample size          |
|-----------------|----------------------|
| 2-5             | 02                   |
| 6-10            | 04                   |
| 11-20           | 06                   |
| 21-50           | 08                   |
| 51-100          | 10                   |
| 101-200         | 15                   |
| 201-500         | 20                   |
| 500 - 1000      | 30                   |
| Above 1000      | Based on calculation |

Note: CB may increase or decrease the sample size along with the justification. But CB shall cover “Core area / activities of scope” in selected samples. Record of justification of sample size shall be maintained.

## Annexure 2: Required types of knowledge and skills for personnel involved with ISO 29993 certification activities

The following table specifies the type of knowledge and skills that an CB shall define for specific functions.

| Knowledge and skills                                                                  | Certification Body functions |                               |                  |                                                            |
|---------------------------------------------------------------------------------------|------------------------------|-------------------------------|------------------|------------------------------------------------------------|
|                                                                                       | Application Reviewer         | Auditor and Audit team leader | Technical Expert | Reviewing audit reports and making certification decisions |
| Knowledge of business management practices of learning Services                       |                              | X                             | X                |                                                            |
| Knowledge of audit principles, practices and techniques related to learning Services  |                              | X                             | X                | X                                                          |
| Knowledge of ISO 29993 standard & normative documents related to learning Services    | X                            | X                             |                  | X                                                          |
| Knowledge of certification body's processes related to learning Services              | X                            | X                             |                  | X                                                          |
| Knowledge of client's business sector related learning Services                       | X                            | X                             | X                | X                                                          |
| Knowledge of client products, processes and organization related to learning Services | X                            | X                             | X                |                                                            |
| Language skills appropriate to all levels within the client organization              |                              | X                             |                  |                                                            |
| Note-taking and report-writing skills                                                 |                              | X                             |                  |                                                            |
| Presentation skills                                                                   |                              | X                             |                  |                                                            |

**Annexure 3: Required types of Qualification and Work experience and skills for personnel involved with ISO 29993 certification activities**

| Qualification and Work experience                         | Certification functions |         |                        |                  |                                                 |
|-----------------------------------------------------------|-------------------------|---------|------------------------|------------------|-------------------------------------------------|
|                                                           | Application reviewer    | Auditor | Audit team leader (TL) | Technical Expert | Report reviewer<br>Certification decision maker |

| Assessment experience on ISO 29993 standard               |                         | X       | X                      |                  |                                                 |

**Annexure 4: Requirements for Audit Man-Day for Stage 1, Stage 2, Surveillance, Recertification audit**

| Effective number of employees | Stage 1 Audit Man-day | Stage 2 Audit Man-day | Surveillance 1 Audit Man-day | Surveillance 2 Audit Man-day | Recertification Audit Man-day |
|-------------------------------|-----------------------|-----------------------|------------------------------|------------------------------|-------------------------------|
| 1-10                          | 0.5                   | 1                     | 0.5                          | 0.5                          | 1                             |
| 11-20                         | 1                     | 1.5                   | 1                            | 1                            | 1.5                           |
| 21-50                         | 1.5                   | 2.5                   | 1.5                          | 1.5                          | 2.5                           |
| 51-100                        | 2                     | 3                     | 2                            | 2                            | 3                             |
| 101-250                       | 3                     | 5                     | 3                            | 3                            | 5                             |
| 251-500                       | 4                     | 6                     | 4                            | 4                            | 6                             |
| 501- 1000                     | 5                     | 7                     | 5                            | 5                            | 7                             |

## **Annexure 5: Integrated audit or combined audit**

ISO 29993 audit can combine / Integrated audit with other management system, CB can add the Audit time for 30-50% as per applicable, justification required for added audit time. In case CB reduce the audit time, CB show the valid justification with Man-day calculation for audit time reduction. CB shall maintain the record for Audit time calculation.

## **Annexure 6: Other country Audit**

- A. CB shall make risk assessment before conduct audit other country then CB resident country, CB shall cover in Risk assessment include, but are not limited to economic, sociology, working environment, security of assessment team, language interpreter, Religion and Other relevant factors. Records of risk assessment shall be maintained.
- B. CB shall make risk assessment before conduct audit more than 1 country then CB resident country, CB shall cover in Risk assessment include, but are not limited to economic, sociology, working environment, security of assessment team, language interpreter, Religion and Other relevant factors. Records of risk assessment shall be maintained.
- C. CB may take interpreter for language support.
